

KINROSS CYCLING CLUB

Fife Cycling Association 2011

The FCA through its clubs organise many events throughout the year. The events being arranged can be seen in the KCC web site or in the British Cycling calendar.

The midweek TT league has been doing well since its inception and proving more popular year on year.

Last year there were 20 events run with 732 rides in these events

This is slightly fewer than in 2010 which had 837 rides but there were fewer events run last year.

Kinross' involvement started in 2009 with 2 riders and 9 rides.

2010 saw a huge improvement with a total of 49 rides from 6 members and an 8th placing in the league.

2011 saw further improvement with 52 rides from 7 members although a high final placing escaped us.

We managed to scrape off the bottom of the team competition although only by one place. We did however have the Ladies Hillclimb champion and will be looking for someone to hit similar highlights this year.

Donnie however managed to get a ranking place in his league and a small cash prize to go with it. I believe he is the only rider to have taken place in some of the weekend events

We have 4 FCA events to run this year and I look forward to getting the same high level of support in running these events that we have had so far.

The FCA is looking for people to qualify as Commissaries and also as time keepers.

Hopefully, we can look forward to an increasing involvement of KCC riders who have the talent and desire to reach the higher placing's.

I am giving up the FCA position on the committee but can remain to either advise/ help/ or do the FCA activities this year until someone is ready to take over.

Ken Ogilvie FCA representative
